

IOSH MANAGING SAFELY

ON-SITE

3 DAYS LIVE CLASSROOM

3 DAYS OPEN CLASSROOM

TRAINING OVERVIEW

The IOSH Managing Safely Course teaches delegates a complete understanding of their roles in occupational safety management. Our expert trainers include case studies and real life situations where they have applied their own leading safety training.

Above all, we give an accomplished level of knowledge and resources to assure the delegate will successfully earn a level 2 IOSH qualification.

An IOSH 3 day course can cover all your needs in protecting yourself and your team.

COURSE AIMS

- Introduction to The Institution of Occupational Safety and Health (IOSH) and IOSH Managing Safely Course
- Investigating accidents and incidents
- Risk assessment
- Controlling risk
- Common hazards
- Measuring employee performance
- Understanding health and safety responsibilities as a manager
- responsibilities for health and safety institution of occupational safety

DURATION

3-day course classroom based or live virtual classroom commencing at 10:00 hours, ending at no later than 16:30 hours, with a 30-minute lunch break.

LEARNING OUTCOMES

Develop or reinforce knowledge of:

1. Introducing Managing Safely
Why is it important to manage safely?
What are the responsibilities as a manager?
2. Investigating Accidents & Incidents
How do accidents and incidents happen?
How are investigations carried out?
Why investigate accidents and incidents?
3. Human Factors
What are human factors?
How does human failure contribute to the cause of accidents?
4. Assessing Risk
What is classed as a risk?
How are risk assessments carried out?
What is a risk assessment?
5. Controlling Risk
How to reduce risk?
How to decide which risk control to use?
6. Understanding Managers Responsibilities
What does the law require managers to do?
What are the key parts of a health and safety management system?
How does the law work?
7. Common Hazards
What are common hazards?
What can you do about common hazards?
8. Measuring Performance
How do you measure health and safety performance?
What is performance measurement and safety measures about?
What is auditing?

ANTICIPATED BENEFITS OF ATTENDING (FOR THE EMPLOYER)

- Improved health and safety awareness, which means less accidents
- Proven reduced number of sickness and absences
- Greater productivity from your team because of this
- Increase business reputation with an approved IOSH certificate
- Impactful results that can be implemented immediately after the IOSH Managing Safely Course is finished
- Promotes a civil responsibility guaranteeing a safe workplace for everyone

WHAT CERTIFICATION WILL YOU ACHIEVE?

The delegate will receive a Level 2 IOSH Qualification upon successfully completing the IOSH Managing Safely Course and assessment. This is equivalent to a GCSE standard in the UK, as well as the internationally recognised qualification for safety awareness culture.

An IOSH Qualification never expires. However, IOSH recommend taking an IOSH course every 3 years to refresh your training.

As Managing Safely is a 3 day course, we understand this can take some time away from work. Therefore, we have developed a 1 day refresher course. Please see our Managing Safely Refresher Training for more details.

The IOSH Courses can also result in CPD (Continuing Professional Development) hours towards maintaining your membership at your professional institute.

HOW IS THIS COURSE DELIVERED?

Learning will come in a classroom environment in the form of trainer explanation, group discussions, videos, practical classroom exercises and will be broken up with breakout sessions.

At the end of successful completing this course, each delegate must take a multiple choice exam. This will take 45 minutes to answer, with 30 multiple choice questions, true or false questions and one-word open questions.

Exam

The IOSH Managing Safely exam questions are based around the learning outcomes from the 3 day course. The exam takes place on the third day of the IOSH Managing Safety Course.

IOSH Managing Safely Risk Assessment

The second element is a practical risk assessment. A hazard spotting exercise will be undertaken in the delegate's own place of work. The risk assessment should be completed within 2 weeks after the IOSH Managing Safely exam.

The pass rates are as follows:

Multiple Choice Exam – 36/60
Practical Risk Assessment – 23/38

IOSH Managing Safely Online Assessment

The assessment will be completed via an editable PDF document. Each delegate will receive an email of the PDF document.

All delegates are required to be on camera throughout, so the trainer can supervise.

DO YOU NEED TO BRING ANYTHING WITH YOU?

- Photographic ID
- The course trainer will provide everything else for the course
