

PETROL RETAIL CONTRACTOR'S SAFETY PASSPORT

2-DAY OPEN CLASSROOM

2-DAY ON-SITE

COURSE AIM

To build on the basic health and safety information of the Core Day programme by concentrating on risks specifically found with working on a Petrol Filling Station.

To allow delegates to recognise hazards, utilise control measures and safe working practices and maintain a safe working environment.

LEARNING OUTCOMES

On completion of the course delegates will:

- Demonstrate their understanding of the subjects by successfully completing each module assessment paper.
- Appreciate how they personally can influence good standards within health and safety environment.
- Understand the value of risk assessment and have the knowledge to recognise when changed to a generic assessment is required.
- Understand the common hazards associated with working in this sector.

- Other hazards.
- Contractor hazards.

Module 2: Controlling Work on a Forecourt

Module Content:

- Communication.
- Documentation.
- Safety method statements.
- Clearance certificates.
- Permits to work.
- Task classification.

Module 3: Safe Working Practices

Module Content:

- Setting up your safe place of work.
- Sales building hazards.
- Confined spaces.
- Excavations.
- Hot work.
- Working at height:
 - ▶ Roof work.
 - ▶ Ladders.
 - ▶ Mobile scaffold towers.
 - ▶ Mobile elevated work platforms.
- Electricity.
- Environmental protection.

EXERCISE

A mandatory exercise designed to add a practical element to the course. Part one delegates will complete a hazard spotting based exercise on a picture of a petrol station. Part two delegates will complete a risk assessment based on their own work task on that petrol station and determine control measures to reduce risk.

Delegates complete clearance certificate based on a job task they would be expected to complete on site.
