PROGRAMME

AUTHORISED PERSON CONFINED SPACE TRAINING

ON-SITE

4 DAY OPEN CLASSROOM

TRAINING OVERVIEW

This course is designed to meet the essential requirements for 'controlling the entry and work' in confined spaces, required by the Confined Spaces Regulations 1997 and the Safety Rules and Procedures contained within JSP 375 Volume 3 Chapter 6.

COURSE AIMS

- Understanding the legislation applying to confined spaces working.
- Applying the JSP375 V2 Chapter 6.
- Undertaking the risk assessments of confined spaces work.
- Working with permits to work.
- Developing safe systems of work and safe methods of work.
- Selecting, installing and maintaining control measures.
- Understanding the mechanisms of atmosphere testing and monitoring.
- Developing, installing and maintaining emergency plans and procedures.
- Maintaining records and documents for confined spaces working for entries, which have been, risk assessed and classified under JSP375.

DURATION

This is a 4-day event commencing at 10:00am Monday, ending at the latest 3:00pm Thursday, with a 30-minute Lunch break each day.

ANTICIPATED BENEFITS FOR THE LEARNER?

To provide learners with the practical skills and the required level of understanding of the safe working procedures associated with entering and working in confined spaces under chapter 6 volume 3 of the JSP.

ANTICIPATED BENEFITS FOR THE EMPLOYER?

To be able to comply with safe working practices in the commercial industry.

LEARNING OUTCOMES

1. Introduction.
2. Health & Safety Legislation and Confined Spaces Regulations.
3. Confined Space Identification and Associated Hazards.
4. Hazardous Atmospheres.
5. Safe Systems of Work.
6. Emergency and Rescue Arrangements.
7. Medical Requirements.
8. Training and Competency Requirements.
9. Confined Space Equipment.
10. Confined Space Risk Assessment.
11. Permit to Work.
12. Confined Space Entry Planning and Implementation.

WHAT CERTIFICATION WILL YOU ACHIEVE?

Successful candidates will achieve a City and Guilds Accredited Programme certificate in Authorised Person Confined Spaces Training. The certificate should be refreshed every 3 years.

HOW IS THIS COURSE DELIVERED?

Learning will come in a classroom environment in the form of trainer explanation, group discussions, videos, practical classroom exercises and will be broken up with breakout sessions. Practical within a simulated confined space or trailer unit. Assessment of learning will be a multiple choice delivered by paper.

During the course learners will be assessed by both written and practical exercises.

DO YOU NEED TO BRING ANYTHING WITH YOU?

- Photographic ID.
- For familiarisation of the equipment during the course, delegates are advised to bring outdoor protective clothing, such as: Safety boots (a minimum requirement), Hard hat, Gloves, Overalls or work clothes, Knee pads (optional).
- There are practical exercises involving the use of breathing apparatus, delegates working on Commercial estates are advised of the need to provide evidence that they meet the level of medical fitness required by the safety rules covering confined spaces.
- All other course material, such as a work book, will be provided by the trainer on the day.
