

FIRE DOOR INSPECTION

ACCREDITED
PROGRAMME

ON-SITE

3.5 HOURS LIVE CLASSROOM

1 DAY OPEN CLASSROOM

TRAINING OVERVIEW

This 1 day course is suitable for those inspecting fire doors who require a full and comprehensive understanding of their role, and a good appreciation of the current standards to achieve competence. It covers fire door regulations, fire door inspection requirements and evidence of fire door performance. The course addresses the importance of different types of fire doors and their installation, and an appreciation of the importance of components including door closers, hinges and door hardware. It features practical examples of fire door inspections to help reinforce the key learning points.

Our course doesn't cover the initial inspection and sign-off of a newly installed fire door. It covers basic inspection to ensure fire doors are still compliant and fulfill the criteria of the Risk Assessment.

COURSE AIMS

- Fire compartmentation and how buildings are constructed for fire safety.
- Demonstrate your knowledge of the different types of fire doors.
- Identify the importance of critical components, such as door closers / hinges.
- Carry out basic fire door checks and procedure by applying conformity criteria.
- Understand the advice to give the building owner, client or property management team in case of inspection failure.
- Compliance with the Building Regulations 2010.
- Compliance with the Regulatory Reform Fire Safety Order 2005.

DURATION

1-day course classroom based commencing at 10:00 hours, ending at no later than 16:30 hours, with a 60-minute lunch break. 3.5 hours live virtual classroom commencing at either 9:30-13:00 or 13:00-16:30.
